### LLOYD GEORGE HINTS PREMIER TOO TRUSTFUL

### Predicts Italo-German Wars To Stay In Spain Until Demands Met

LONDON, Feb. 3.—David Lloyd George predicted today that the German forces will remain in Spain until Great Britain and France have granted demands of Germany and Italy.

Speaking at a meeting of the council of action, he questioned statements made by Chancellor Adolf Hitler in his speech Monday.

"Read that speech again," he said. "What does it really mean?"

"Is the German Führer's belief in peace based on his knowledge that he has his partner, Premier Mussolini, behind him?" he asked.

## They Talk Home-Building

Henry W. Rattenbury, recently dismissed city purchasing agent, walked into the city police station shortly after 9 p.m. Thursday and gave himself up to answer charges of theft of \$704 city funds. He had been sought by police at Vancouver since last Saturday.

Released on \$6,000 bail, Rattenbury appeared in city police court at 10 a.m. Friday to answer charges.

His plea was entered, and Rattenbury, face pale but otherwise not visibly nervous, heard the charge adjourned to February 10.

There was no alteration in the amount of bail, and no additional charges were laid.

Rattenbury left the courtroom immediately following the adjournment accompanied by William Pearce, who appeared as his counsel.

Through friends it was learned that the former purchasing agent returned to Edmonton immediately following the adjournment.

When Rattenbury left here it was understood that no action was immediately contemplated by the city against his arrest had been issued.

# War Time Zoning System In England Scotland, Wales, Plan

By J. F. SANDERSON  
Canadian Press Staff Writer  
LONDON, Feb. 3.—A zoning system for the civil defense of England, Scotland and Wales will be put into effect today by Sir John Anderson, Lord Privy Seal.

England, Scotland and Wales will be divided into 12 regions, of which the London metropolitan area will be one. In peace time each region will be administered by a regional committee, whose main duty will be to act as liaison officer between the local authorities and the civil defense departments of the government.

The scheme includes a shadow organization which would take control of each region at the outbreak of war. There would be a regional commissioner and a staff which will be designated in advance. The regional committees will have no administrative or financial responsibilities of any government departments concerned with civil defense.

## DUTIES OUTLINED

The duties of regional commissioners will be divided into three of war. The idea behind it is to divide one man with all the powers of government, which could be used only if the region were decimated by air attack or isolated from the headquarters of government.

In everything but name the commissioners will be civil governors with absolute power derived from a requisitioned "Deeds" (Defense of the Realm Act).

## COULD FUNCTION

But a region in case of need could function as a self-contained unit under his absolute control. In peace the regional commissioners will have no administrative duties but will be expected to keep in close touch with affairs through the regional offices. The work of the latter officials will avoid government red tape and confusion and through a measure of delegated authority will pass on local defense for civil defense.

## Canadians Can't Insure Against War Is Claim

MONTREAL, Feb. 3.—A Canadian wishing to insure his property in this country against damage from war would be unable to do so, a prominent insurance broker here said Wednesday, commenting on the British government's plan of national insurance to provide compensation by the state for war damage caused by bombing of industrial plants, commodities or homes.

War insurance is not being sold on land property in any part of the world, and has not been sold since Jan. 1, 1938, when insurance underwriters decided on a policy of restriction, he said. Water-borne property may be insured against war damage in Canada, but not land property.

## Heavy Snow

WINNIPEG, Feb. 3.—Manitoba residents dug themselves out of deep drifts Thursday following a heavy snowfall, whipped into a blizzard by biting northwest winds. Many highways and side roads were blocked and farmers were stranded in their homes. The snow ceased during the day.

## Our Old Country Letter

—By J. E. Norcross

LONDON.—(By Mail)—Opposition is growing to the prison reforms proposed in Sir Samuel Hoare's Criminal Justice bill. There is a feeling that things are going to be made altogether too comfortable for the criminal.

This was voiced by Sir Reginald Coventry, K.C., when speaking at Worcester Quarter Sessions. "It is a crime," he said, "to longer going to be a house of correction, but a place where people can have comfort they would not enjoy in their own homes, where they will be entertained and generally live a life of ease, for many of them, will be a great improvement upon the life they have at the present moment. I cannot think that will be of benefit to the country."

So gentle have we got to be to the unfortunate people who appear in the dock that I do not think we can hurt their feelings by telling them to go to a term of imprisonment. We shall have to do it up in a more pleasant form, and say that they will be detained for a term of that sort."

Continuing the discussion, he pointed out that the bill was a punishment for officials in prison. The judges have all declared against it.

When she recognized a youthful burglar who had broken into her home in Milwaukee, 15-year-old Ruth Scott, above, was slain with an axe. The killer lashed her arms and legs and injured her mother. Mrs. James Scott, who was awakened by her daughter's cries, the killer was captured and is sought to escape from the city aboard a truck. He confessed the slaying.

## JAPAN BACKS WRONG HORSE AVERS BANKER

NEW YORK, Feb. 3.—Japan backed the wrong horse when it went into the German-Italian camp, Sir Victor Sassoon, head of the international investment and banking house of E. D. Sassoon & Co., said in an interview here today.

Even if successful in the attempt to dominate China, Japan will need a great deal of money to develop and make anything out of China and neither Germany or Italy can lend it to them, he said. The British financier, who has large interests in Shanghai.

Crack Royal Scott Train Not To Make Tour Of Dominion  
NEW YORK, Feb. 3.—The "Continental" Scott ultra-modern locomotive-Glasgow streamlined train will not visit Canada on its coming American tour, British railway officials said here Wednesday.

The British luxury liner, which holds the world's steam traction record for a distance laid at over 80 miles an hour, arrived at Baltimore Feb. 13 from where it will begin a 3,121-mile tour of 38 United States cities before going on exhibit at the New York World's Fair.

## Emergency Landing

NEW YORK, Feb. 3.—Pan-American Airways officials said the flying boat Bermuda Clipper made an emergency landing "because of fast-changing weather conditions" at Cape May, N.J., Thursday. There were 10 passengers aboard. The plane, making the return trip from Hamilton, Bermuda, with a crew of five, was undamaged.

## Three Sentenced For Causing Death Of Nine Women

MOSCOW, Feb. 3.—For causing the death of nine women harvest workers, Shamsudin Ramanzanov, manager of a collective farm in Kazakhstan, and two Chukchikov, his assistants, have been sentenced to prison for eight and three years respectively. Chukchikov lies just west of the Caspian Sea.

Witness testified Ramanzanov and Chukchikov ordered a large group of old women to go to a cornfield 30 miles from their village, saying: "Never mind if they die, they are only old women anyway." As a result of over-exertion and exposure many women became ill and nine died.

Look forward to being spared the only punishment which deters them." Curiously enough, Liverpool's own contribution to the discussion takes the other side. The Recorder, Mr. R. G. Hemmerde, K.C., said that Sir Reginald Coventry's remarks were really a damning criticism, not of the bill, but of the social system.

# SASKATCHEWAN LAWMAKERS PASS THRONE ADDRESS

REGINA, Feb. 3.—Without a dissenting voice, the Saskatchewan legislature last night passed the address in reply to the Speech from the Throne after ignoring the 11 p.m. closure rule. The session broke two weeks ago when the government was defeated on a bill to amend the Criminal Code.

Participating in the debate were Liberals, several Co-Operative Commonwealth Federation members and a Social Credit. Frank Kene (Lib.), Winnipeg, moved the adjournment of the legislature, closed the debate.

Only minister to speak during the day was Hon. J. W. Ealey, Minister of Education, who answered the question of education by stating that more schools operated in the province in 1938 than in the previous year. He reiterated that every dollar of the province's income tax was devoted to education.

## NEWSMEN WILL ENJOY SPECIAL STATUS IN WAR

LONDON, Feb. 3.—Newspapermen will enjoy a special status in time of war, Sir John Anderson, Lord Privy Seal, said today in the house of commons.

Replying to a question from Geo. Mathers, Labor, he said the importance of enabling adequate news services to be maintained is fully recognized, and that consultations have already taken place with representatives of newspaper organizations to enable them to make plans to carry on essential services in time of emergency.

## Canadian-Born Inventor Dies In New York

NEW YORK, Feb. 3.—Francis Cabel Brown, Canadian-born inventor, who is credited with having invented one of the first vulcanized rubber fountain pens, died here today.

Brown, who was 87, was born and educated in Toronto. He came to the United States as a young man and in 1889 invented his fountain pen. At that time he was one of a large list of concerns and was a close friend of Thomas Edison. Brown retired from the ink business in 1922, entering the insurance field.

# 2,750 Hungry Convicts Object To Hash: Go On Strike In San Quentin

SAN QUENTIN, Calif., Feb. 3.—Some 2,750 hungry, sullen convicts went on strike, violently against San Quentin prison's menu, remained in their cells and ate bread while Warden Court Smith went about what he termed a potential "powder keg" situation. More than half the prison's population of 3,500 was on strike.

On Smith's order, one-pound portions of bread were handed to each prisoner during the morning. The bread disappeared quickly.

The warden expressed the belief food was not the real issue. "It is possible they are being led by a few agitators seeking to direct publicity to the prison as a means of gaining additional privileges," he said.

The strike began at midnight Wednesday when about 1,500 convicts refused to enter the mess hall. Forwarded the prisoners were about to rebel against the corned beef hash, served regularly at noon every Wednesday, Smith had ordered the lunchmen menu changed to meat loaf and spaghetti.

## Withdraws Offer

But when representatives of the proposed site heard of the proposal, land values took an sudden jump. So rather than prolong the festing, Collins withdrew his offer.

## WPA FUND IS SET BY CONGRESS AT \$725,000,000

WASHINGTON, Feb. 3.—The United States congress gave final approval yesterday to a \$725,000,000 relief appropriation to carry the work progress administration through June 30. The measure now goes to the White House.

The \$725,000,000-\$150,000,000 less than President Roosevelt recommended—is intended to keep W.P.A. operating through June 30. The bill contains a provision, however, that the president may ask for more money in the event an emergency arises.

## Heads-Surgeons

OTTAWA, Feb. 3.—E. M. Medlin, Ottawa, was elected president of the Canadian Institute of Surveying Thursday in succession to Bruce W. Medlin, who was 87, was born and educated in Toronto. He came to the United States as a young man and in 1889 invented his fountain pen. ## Man Dies While Attempting To Save His Horse

RIMOUSKI, Que., Feb. 3.—Edmund Desnoyers, 36, of nearby Lacville, Que., died Thursday in a futile attempt to move his horse from the path of an approaching train, which struck the farmer before he could jump from the track. Both he and the horse were killed.

## Groceryman Gets \$100 for \$2—Informs Police and Money Makers Get Jailed

Chicago, Feb. 3.—This is another story about two confidence men with a "money-making" machine and a stockbroker. But it's different.

Frank Ginsberg and Otto Bergoff called on Rudolph Fischmann, chain grocery owner. They introduced him to a scheme to get rich, took him to their apartment and showed him chemical paraphernalia with which they said it was possible to make \$50 bills out of one's.

Fischmann handed over two \$1 bills and watched while Ginsberg and Bergoff passed them through a solution, pressed them with a blotter and brought forth two \$50 bills.

"Take them to the bank," Ginsberg said, "and if they're good, bring back \$10,000 and we can all be millionaires."

Fischmann took the two \$50 bills, deposited them at his bank, then called police.

They arrested Ginsberg and Bergoff. Ginsberg, they said, has a record as a confidence man and served a prison term for a "money machine" swindle. The name Bergoff is an alias, they said.

At the detective bureau, Ginsberg asked Fischmann for the two \$50 bills.

## Groceryman Gets \$100 for \$2—Informs Police and Money Makers Get Jailed

Chicago, Feb. 3.—This is another story about two confidence men with a "money-making" machine and a stockbroker. But it's different.

Frank Ginsberg and Otto Bergoff called on Rudolph Fischmann, chain grocery owner. They introduced him to a scheme to get rich, took him to their apartment and showed him chemical paraphernalia with which they said it was possible to make \$50 bills out of one's.

Fischmann handed over two \$1 bills and watched while Ginsberg and Bergoff passed them through a solution, pressed them with a blotter and brought forth two \$50 bills.

"Take them to the bank," Ginsberg said, "and if they're good, bring back \$10,000 and we can all be millionaires."

Fischmann took the two \$50 bills, deposited them at his bank, then called police.

They arrested Ginsberg and Bergoff. Ginsberg, they said, has a record as a confidence man and served a prison term for a "money machine" swindle. The name Bergoff is an alias, they said.

At the detective bureau, Ginsberg asked Fischmann for the two \$50 bills.

LONDON.—(By Mail)—Opposition is growing to the prison reforms proposed in Sir Samuel Hoare's Criminal Justice bill. There is a feeling that things are going to be made altogether too comfortable for the criminal.

This was voiced by Sir Reginald Coventry, K.C., when speaking at Worcester Quarter Sessions. "It is a crime," he said, "to longer going to be a house of correction, but a place where people can have comfort they would not enjoy in their own homes, where they will be entertained and generally live a life of ease, for many of them, will be a great improvement upon the life they have at the present moment. I cannot think that will be of benefit to the country."

## 292 CANADIAN SPANISH WAR VETS RETURN

Members Of Mackenzie-Papineau Battalion Land At Halifax

HALIFAX, Feb. 3.—Veterans of months of fighting on the government side in the Spanish civil war, including members of the Mackenzie-Papineau Battalion arrived back in Canada today in the liner Duchess of Richmond.

The party was met by Rev. R. H. Thomas of Toronto, chairman of a national committee named by the friends of the Mackenzie-Papineau Battalion to welcome them and Jack Taylor of Toronto, executive secretary of the organization.

**OTHERS SAFE**

A. MacLeod of Toronto, who handled the arrangements for the return of the soldiers, said he received a cable on the way out today that 137 of their comrades had made their way from Spain across the border to France last night.

MacLeod said the veterans would be provided with necessary clothing on the special train which will leave today for Montreal and Toronto.

Major J. Cecil-Smith of Toronto, commander of the corps, said he charged as "petty gnomes" about the government's line at Barcelona.

**NO GREAT EXHAUSTION**

Most of the veterans were glad to be back in Canada but showed no great exhaustion. Two of them went to the hospital to have their wounds treated.

**PRETTY DIFFERENT**

"It was pretty different from the last war," he said. "Quietly, without a thing of the sort."

To his mind, improvement in ammunition was one of the features. The rifle, however, had not been improved greatly. The soldiers had used some Bren machine guns.

The ship-Cecil-Smith said the food in Spain was not too bad. "There were very few days when it was a hot meal," he said. Sometimes, he said, the supply train failed to get through.

**Canadians Are Sent Back Into France**

CHATELAIN, France, Feb. 3.—The Spanish government last night sent a trainload of 100 members of its disbanded international brigades into France by way of Carbone, but the 137 Canadians among them were too late to enter the country.

The Canadians missed a train which the liner Duchess of Richmond had connected them with the liner Duchess of Abolition, which was sent to Great Britain. They expected to catch another ship during the next few days.

This group of Canadians became stranded more than they expected, said Major E. Cecil-Smith of Toronto, who led out of Spain and who was in the liner Duchess of Richmond.

Hospital Case of Rheumatism

The value of perseverance with Kruschen's treatment of some cases of rheumatism, is proved by this man's experience. He says—

"When I returned I began to suffer from rheumatism, particularly in the neck and arms. I was eventually taken into hospital for treatment. I was given a course of treatment, but it did not help. When I left the hospital after two months, I was somewhat better. I was recommended to take Kruschen's, and I have taken it ever since. It has helped me very much. I am now able to do my work, and I am no longer in pain. I would not be without my Kruschen's for anything."

Speaking here Friday, Roger Charet, young Montreal lawyer, analysed the relations of Quebec to Confederation and said that Canada should enjoy the unfettered right to frame an external policy as she herself chooses. He was addressing the Canadian Club at a luncheon meeting.

FRESH SNOW IS NOT  
ALWAYS WHITE.

Snow, as it falls from the sky, is not always white. As the late hunter has pointed out in his book "Nature Chats," snow is sometimes green, blue, red, or even black. It may be green, blue, or even black due to the action of innumerable tiny plants called fungi which attach themselves to the snow when it is still in the air. Red snow is not uncommon in Arctic and Alpine regions. In the Middle Ages, red snow so frightened the people that so often moved to different parts of the country to escape the evil that they believed was portended by its appearance.

**GLASGOW, Feb. 3.**—Twenty-four teams go into the second round of the Scottish Football Cup competition at the week-end. St. Mirren reached the third round Wednesday by defeating Edinburgh City 3-1 in the Scottish Capital and Alloa proved lucky in drawing a second-round bye.

**Highlight of the round is the clash between Glasgow Rangers and Hamilton Academical, two club rivals, at Ibrox Park. Hamilton has never captured the trophy and Rangers have taken the squad out of the tournament in losing rounds during the last decade.**

**Thirteen First Division teams will be seen in action Saturday. Second Division is represented by six clubs while five minor-league are still in the hunt.**

**The revised draw for Saturday follows:**  
Dundee United vs. Motherwell; Queen of the South vs. Aberdeen; Wigan vs. Barnsley; Blackpool vs. Blackpool; Aberdeen vs. Queen's Park; Third Lanark vs. Cowden; Dundee vs. Clyde; Hearts vs. Elgin; Rangers vs. Hamilton Academical; Mother vs. Celtic; Falkirk vs. Aldershot; Dumbarton vs. Dunfermline; Hibernian vs. Kilmarnock.

**Midweek victories for Derby County and Everton left goalkeepers of the two clubs in the top division.
